

## Bulletin - Engineering Experiment Station Volume 27-34

Filesize: 2.37 MB

### ***Reviews***

*This ebook is very gripping and fascinating. Sure, it is engage in, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.*

**BULLETIN - ENGINEERING EXPERIMENT STATION VOLUME 27-34**

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 Excerpt: .not be identical. We proceed, therefore, to correct the constants by the Method of Least Squares. Let  $(t_1, x_1), (t_2, x_2), \dots, (t_n, x_n)$  be observed pairs of values of  $t$  and  $x$ . The problem is then to determine  $a$  and  $y$  in such a way that if  $t$  is given  $S^2 = a^2 + y^2$  shall be a minimum. In order that  $a$  and  $y$  shall make a minimum they must satisfy the so-called normal equations:  $\sum (t_i - a - y t_i)^2$  These equations may be written As their exact solution in their present form is impracticable on account of their complexity we replace them in the usual way by a system of approximately equivalent linear equations, by making use of the fact that the quantities  $u, v$  by which  $a$  and  $y$  differ from  $a_0, y_0$  respectively are small compared with  $a_0, y_0$ . Expanding the logarithms by Maclaurin's series and neglecting terms of the order of  $uv$  and  $v^2$  in comparison with those of the order of  $u$  and  $v$  we have (23) Expressing the natural logarithms in terms of common logarithms we have, putting  $u = B_i A_i + v B_i V_i$ , (25) or in the usual notation of the method of least squares  $u A A + v A B = K A G$ , (20)  $u B A + v B B = K B C$ . From these equations  $u$  and  $v$  are readily computed and hence the corrected values  $y = a_0 + u$  (2D  $y = a_0 + v$  are found. 6. Application Of The Method...
