The teaching materials for agricultural colleges and agronomy, horticulture, resources and the environment, plant protection, animal science, meteorology, agricultural engineering and other professional use, also can be used as training materials for agricultural cadres. Agricultural economic management is a covering economics, management and sociology comprehensive discipline, its object of study is the law of the socio-economic activities in the field of agriculture, agriculture and related sectors for China's modernization and economic development services. Early, the discipline is primarily an agricultural economy, with China's national economy from a planned economy to a market economy, the social demand for agricultural economic management personnel, absorbed in the early 1980s, many important management discipline, and the discipline significant development. Today, agricultural economics and management is compatible with both the content...

Reviews

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Brennan Koelpin**

Comprehensive guide! Its this type of very good read through. It is actually writter in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
