They account for almost 50 percent of all the recorded deaths that occur every year and moreover, affect the lives of 14 million people. This number includes those with chest pain, known as angina pectoris, as well as people who have defects in their hearts which result in ineffective pumping of the blood. This ultimately leads to the tissues getting inadequate blood. Almost 1.5 million Americans suffer from heart attacks each year and approximately 1/3rd of these perish. Each year almost 700,000 patients who have heart disease, choose the surgery option and undergo by-pass surgery to recover from their condition. It must be pondered over that surgery is not the answer to...
